

Understanding of Device & Comprehensive Judgable Capacities of:

Ok'edia Ah'liem

Paris (s.) Miles-Brenden

2025

I.) Teaching and Lesson (*inquiry and schedule.*)

II.) Administrational & Demonstrative.

III.) Procedure & Technique.

a.) Postal Procedure

b.) Banking & Checking

c.) Work with People

d.) Work with Friends

e.) Application of Lessons

f.) Workmanship with Tools

g.) Adaptation of Procedures

h.) Basis of Comprehensibility

I.) Simplification to Lesson

2.78/. [9.5:14][22-338:96-7.15];[26:24.56[511:98.30]].

i.) Economic Measures.

ii.) Ecology & Material Applied Practice.

b.(#):.ref Guidepost.

*Separating the interest of chemistry and forensics for psychological diagnostic and symptom from pathology with a graham negative copy and detection method of dye and pigmentation, and leaving demonstrative action to people, assures the means to utility of economic and ecology without demonstrative action of incurrance of violation of terms with inheritance of diagnostic, chart, catalog (of unmixed ***then**) and symptom of behavior, attribution, and cognition.*

The principle basis is the unmixing and mixing of theoretical establishment of precept through measurable end.

Predictive Design

a.) Changing to a basis of 18 ohms, 39 ohms, .22 uF, and 4.7 uF, and such, to 120 pF, and 220 pF, and 300 ohms, and 10 kohms, and 4.7 kohms, and 22 ohms, are all possible now. 6 resistances, and 4 capacitances.

1.) I am within range of behavioral and engineered cavitation and assurable end of numeric theoretical symbolic measure and quality of the distributive process of a 1-1 or 3-2 or 2-1 progression with electronics for strategy of defensive and cooperative opponency and cooperative enablement of individual and national assignable practice.

b.) I can make but-one mistake of the design, without adopting means to correct for mistakes, as a result of having two [used-in-discs], and two (missing), and six (6) remaining, as a result of requiring six, and 7 with the current one. The m-4-40 bolt(s) may be considered substitutionally, as well as the transformer, but it is wise and cultivational to consider restricting the design process and procedure; to consider parts, and for what they may be distributive to.

2.) Equating myself [Paris] with another, in-assurance, of what I had already decided, does not hinge of a relationship unto another's life, however, entitling a person is, the exclusive, is that without the means of an assurable pathway, there is distressable co-conditional and mutual intimation upon regress to disambiguability and a loss in function to means of facilitation without another, for which situations reprove of inconstitute disposition to the means to assure mine and other's life. Thus, I must as it were, under relationships, cooption and contradictly compromise less of the means by which I facilitate my developed workmanship and established means to these tasks.
