

In the end, I found the administrative credit, not-becoming as unbecoming favor or loss, or as to this, discredit, I found the appointments I would need-do, for related intangible end, unfavoring to the persuasiveness of a fair appreciative disinterest, and liable to face shock, or lossful incurrence.

As the resultant of consequentive immeasurable amends and dictation, the council was provisional to license the rightful trust of dutiful end, and measureable in accredited loss with a counter council, to which I left unprovided resolvancy, and loss 'viable' the difference of mutual apportioned aggrandization and retaliation in the interest of a well provided release to technological trust.

This was financial for me, a business-co-functional basis of related interest, without abandonment of works, quasi-functional and weak disinterest in the catalog of effects for the counter-council in unprovided end, *somewhat attritional a loss in dysfunctional favor and rancor*. So, to come to terms with the policy, I would be shaken, but to trust of my diagnostics, charts, and functional mental super-executive policy of the oversight associated with diagraphical works of reference.

So, in choosing to associate per-policy with the woman *\*attentive* and held, and find privy to choose council, provided an end to disfavor, the argumentative basis loss it's fecundity, and power of persuasion, to which *I found temperateness, and shifted to Engineering of a mechanistic approach to the utility of my management of works and catalog(s)*.

To me, many were on my side, the functional amends, (to set to Hana's trust and my rightful end with Ava, to trust long term, the courtmanship in Linda, to a wife, was beset on honor, or – Ava, Ariana, or Hana\* [whence fully adult]). In this end, finding that either (of these terms functioned under separable end and process) *my management of work and play, life, and success, chance, and favor, understanding, and caring belief; went beyond the loss of prestige, and induction*.

Thus, I found in-this a people did not understand Direct-Current or Electricity, they understood the motor, not so much 'the starting sequence' of a direct-DC solenoid. This insult, was unnecessary, for antiquation proved privilege, in my human stupidity, then though very much, insult went to rumor, discredit, and ancillary relations of humility, in the loss of unblamed action and resistance *therefrom*, I did not provoke that I would be unamended, I was, a miracle.

So, then, the trust built and established, set my family, my reprieve, my position, my counsel, my rightfulness, my success, and my well provided answer in place, to this era, but to find that it was without award, in the suspicion, that non-provision accessorizes another's well provided keeping in the trust of positions, and the above, changing hands, then that phenomena, could not be provided an identifying feature of the trace of a people, in as much, a singular default.

So, I decided to turn over the hands, to trust of a ranking, and a keeping, a home, and amended tie, in my disability from chance, and provision to well established love and proprietary welfare. As to all of this, I decided insult is a safe-perjury upon a harbor I would not appreciate departure unto, whence, (when lower as such) it is appropriately lessened by which it falsely-credits or passes secure means to appreciate encouragement.

That of the maternal truth was to find Hana, a fair relation to be held, apart, for the time in being, as well *thence* the-other's, but for meeting of any of Hana, Ava, Amanda, Koci, Butera, Ariana, and that of Obama and Lloyd, and Stephani, Ciera, and Linda (once more), when I had finished the undivided of folding printing works, and that of the works of electronics, had founded a new home (in part in savings post this apartment) – and had worked for some time on finding myself through the other's.

I had intended as-Hana was supportive in a relationship, Linda had provided an answer to come along, that of Ariana had trusted to wear a ring of **\*promise**, and Ciera had been suffering of laws, and Obama, - known, while, Ava and Koci had trusted me, that I would await finding a workmanship and employment to sustain me for the time current in being as to 2 months short of 3 years, and 15-25 days accepted to finding love, whence I was approached.

Thus, a bicycle, home, printer staffing, a job, and love, to find, support, and keep, retain, and provide for a loving family.

To find, \*one relation of admission to fair-gratitude, I related of a person, [myself] unsoporifically and appreciatively *withdrawn*, and could find [me] myself in motivation to listen, and functionally *withdraw*, from unappreciativeness. This was the first step beyond a rage syndrome, to-which I found appeased *then yet*, a single\* singular and non-multiple choice *to-be, for of loss to find what was unencouraged*, and relate, for the given, 'that' *one would admit that I could be a part of a process, and I began to think, for my conscious state*, beyond a coma, and autonomia, and memorization. *People would assist me in life, and I had found I could fully love again & once more.*

As [pertainifially to pertience, as an intend 'as it may or rightfully relate of congruence comparable religion and religious topic:]

a.) A homely relationship in the father, *knowable*, via which then, a woman is set\* to rightful trust, appreciates of the difference of which we may amend a relation of murder. The relation of murder, dis-a-proportionately progresses ancillary, to-prison as a destined unmutuals, then\* of it's lossful incurrence, *\*an-initial loss in theivery to consequent non mutual mutual unilaterals of a 'horizonal'*. Thus, disproportionately we are gesturing human beings, in one-body, and relate of the longer progression than the hands *in-given's, and longer and shorter worded basis of triple-two.*

1.) Thus, appreciation to a process of judgement comparable theft, appreciates of a 'vertical non-horizontal' and de-associates from B&E.

2.) The relation of enforceable policy in theft, then if and if [only] appreciates to a clearing from murder-inclemental progression, whence theft is pursued, in a given process of till and labor, in court, and proceeding a-charted dialog, in amends, without abandonment of contributory objects to a murder and B&E and as-evidentiary, releaseable [non here understood and forbiddable] to the acquitted and under search and seizure.

As to religion, setting the proclamation of a derivational work to the relation of a fatherly, trust, rightfully murdered or unrightfully justifies malcontention, to which we have lost priority of session, therefrom, in a given, parably unloosened and aproportionately rightful progress, a woman set to laws and administrative function, appreciates tolerable end and valuation of virtue, to whom then as such in-law appreciates verbal contrast in written dialectic.

It is un-pre-suppositional (herein calc.) afunctuatively unfracturable for [and of] *then*, whence a marital contract is justified in the man, or of a court, releaseable and contrasted a brotherhood, a primitive appreciation in unlost relation of amended pre-ancillary penisular and insularly provided process of amended priority of session to the wed miss. 'Untincturable'.

Rightfully processable teaching;

b.) The communication basis, from-which a long-process of compilation of the processable data, of the index and background and foreground relation of strategy function(s).

For sacrifices, and functional understanding, and predictive functional process of law and measure, that of ethics, morals, and material assignment comparable east and west, this functions for-me for the next year of dedication.

I decided to go-back to what I study-best, and **\*know-best**, that of science, the apparent relationship in religious *\*mote or inflected relationship of study*, and demonstrative tool-use, for in the relation of logical argument without a social-lesson, *Philosophy, in the trust of the Religiously based Acceptable Plea for Scientific Study & Preservation of Nature*.

I gave my life to a world, in all it's manifest patterns and keys of functional demonstrative inspiration, and fair-living lesson, fatherly and motherly relations of subduction and rising or acclaim, and loss and growth, expirary and extinction, regrowth and interpretative description of mathematical form of the meaning of living and non-living, in the material function of survival needs.
