106.71 Excess Debt

Total debt. : 2269.36

-- ~. 100.00 + 55.00 + 35.00 / mo. – 190/31 ~ 48 a week - 9 month target of 3240 invested on all.... 48.00 a week from Mom. = 190.00 total a month payed for 9 month(s).

8 weeks exemplar.

$3.4 - 3.265 - 2.565 - 2.1 = q$ on 68.00 dollars per week,..... for 3500 ideal in year, 68-6.254..... signature.
190 / mo. debt - 20 / q. - square

?: Digikey
Equipment and w/o Second QuBit parts. Target 6 months.

Equipment and computer and debt.....

I can afford to have the project paid for by (18 weeks) with 75 a week by 11/20/2025. I will have debt paid off by 04/20/2025.

I can afford the computer next year in 2026 if I sell books and items totaling 650, which would need be the three months of and $90 \times 3 = 270$ on books [and 380 on *auxiliary items*], to have everything done by 11/05/2025. *If I lag 1 month and lead one-ahead I can afford 200 more of-parts, with the project completed on 10/20/2025-11/20/2025., but I will need sell books.*
