

Purchases and Monetary:

Paris (s.) Miles-Brenden

2024

a.) I will sell the Casio (~160-210), and, the Books, and Return Items.

1.) In total, this is 286-335.

b.) Then, I must consider the money from-the-payee, and need afford a 256.65 post-tax.....
purchase for a 5-5-6-2-12 : [39.5:14|58].

1.) These must be in-exchange, of the (prior-a.) for that of the Returns and Sales, of the purchase
of the 'firewall', in net and non-net, and wireless-to-internet.

c.) The money from the Payee, goes to application in-savings, to the device (built.).

1.) I need *one new-monitor, for that of the dual-and-HDMI-dual and multi-pane.

(2.) The question-was, if as-such (there were a witness of a day) and a day to come, would they
recognize that 'apart' was the consideration that the objectful identifiers and containers of conditions
could change, from day to day, as per a 'disassociate' as to the 'label of the calendar day'.

a.) The second question was whether humanity could agree to a system of effects, in-
relation to this question, and, a person.

b.) What was apparently a perpondermotive, was the computer useage, and to be lost of
that of economy, as to that of the schedule of consequent liability to theft, in orchestration, were
permenence of a congruence set into orderable and disordered sets.

(3.) The answer was effectively, no.

a.) The consequent detail of an amended basis of overachrrhing and key stone on that of
respondency, and a safe consequent of embanked deposit, was to reclude from what would be
imparitial.

(4.) The answer was effectively, yes.

a.) Ecological disparative-(incomparative) of human to species, of need, in sequesterment
to a machine command op.

b.) Comparative valuative basis of separation of merchantability and item(s).
